

ChSMA

founded in 1953

Chita State Medical Academy
Russia

HISTORY, ACHIEVEMENTS AND ADVANTAGES OF STUDYING HERE

ChSMA is the university, which is the flagship in training highly qualified medical personnel in the Far Eastern Federal District, focused on the needs of the health care system.

2
place

In the local ranking of
universities of the Far
Eastern Federal District

2
place

In "National Recognition" ranking
in the subject "Medicine and
Health"

2
place

In the ranking of medical universities (Far East, 2022)
one of the leading places at the Moscow International
university ranking "Three Missions of the University"
(2022)

SHORT HISTORY OF ChSMA

The ChSMA meets all the challenges of our time, while preserving the best traditions and experience accumulated throughout 70 years of its development. In 2023 the academy is celebrating its glorious anniversary.

The first professors were the most experienced specialists relocated from medical schools of the Soviet Union, participants in World War II.

1953

Based on the decision of the Council of Ministers of the USSR Molotov (Perm) dentistry institute of V. M. Molotov was reorganized into the Chita Medical Institute. The first faculty was medical and prophylactic, 200 students were admitted to the first course.

1958

The Faculty of Dentistry was organized.
A dental clinic was opened.

1979

The Faculty of Pediatrics was opened.
It coincided with the International Year of the Child.

1995

The Chita State Medical Institute received academy status.

RECTOR ChSMA

Dmitry N. Zaycev
PhD, Assoc. Prof.

Has been a Rector since January 2020

COMPETITIVENESS OF ChSMA

over 95%

Graduates are employed

43 regions

Geography of employment of our graduates in Russia

without
boarders

Our graduates have been hired in Germany, Israel, the United States, Canada, Great Britain, Africa, and other countries.

DIRECTIONS AND TRAINING

Faculty of General
Medicine

Period of study – 6 years

Faculty of Dentistry

Period of study – 5 years

Faculty of Pediatrics

Period of study – 6 years

After graduation those who want can apply for one of 31 residency programs in ChSMA.

TRAINING

In ChSMA there is a full-time education. During the first 3 years students study basic sciences that are necessary to build a foundation of knowledge and skills of the future doctor.

These sciences are :

- Biology
- Biochemistry
- Histology
- Normal and topographic anatomy
- Normal physiology
- Pharmacology
- Propaedeutics of internal diseases
- Surgery

OLIMPIADS

The ChSMA has a strong Olympiad movement in the disciplines:
“Obstetrics and gynecology”, “Surgery”, "Pediatrics",
"Otorhinolaryngology", "Dentistry".

Students compete not only in breadth of theoretical knowledge, but also
in the ability to apply practical skills in proposed situations.

TRAININGS

Starting from the 4th year students are admitted to clinical bases where they directly interact with patients, consolidating the received theoretical knowledge and practical skills obtained in previous courses.

In ChSMA students are given the opportunity of interaction with real patients what distinguishes us from medical educational institutions of other regions.

Trainings are held in leading hospitals of Chita.

EXTRACURRICULAR ACTIVITY

Our students are active not only in the scientific sphere, but also in extracurricular activities.

The ChSMA has a large number of dance and vocal creative groups, volunteer groups founded by our students.

The ChSMA annually holds: Talents of the academy, concerts dedicated to Mother's Day, March 8, February 23, May 9, "Miss Academy and Doctor Style", competition between dormitories, initiation into the first-year students, New Year's ball, in which creative teams of students and teachers take part.

Sports activities are also one of the areas of extracurricular life of medical students. The ChSMA has organized basketball, volleyball, soccer, rugby, track and field. Recently a cheerleading team has been formed and now it takes an active part in sports events of the city and the ChSMA.

RESIDENCY PROGRAMS

In ChSMA there are 51 residency programs:

Allergology and Immunology
Anesthesiology-reanimatology
Bacteriology
Cardiology
Clinical pharmacology
Coloproctology
Dentistry for children
Dermatovenereology
Endocrinology
Endoscopy
Forensic medicine
Functional diagnostics
Gastroenterology
General practice (family medicine)
Health organization and public health
Hematology
Infectious diseases

Maxillofacial Surgery
Neurology
Neonatology
Nephrology
Obstetrics and gynecology
Occupational pathology
Oncology
Ophthalmology
Orthodontics
Orthopedic dentistry
Otorhinolaryngology
Pathological anatomy
Pediatric Cardiology
Pediatric surgery
Pediatric endocrinology
Pediatrics
Phthisiology

Psychiatry – narcology
Psychotherapy
Physiotherapy
Psychiatry
Radiology
Pulmonology
Rheumatology
Surgical dentistry
Surgery
Therapeutic dentistry
Therapy
Toxicology
Traumatology and Orthopedics
Transfusiology
Therapeutic exercise and sports
Ultrasound diagnostics
Urology

RESIDENCY PROGRAMS

In 2022:

In 31 residency programs there were admitted
276 residents

Geography: 15 regions of Russia

176 residents finished their residency programs

93.75% residents are employed after completing
their programs

Faculty of Dentistry

Faculty of Pediatrics

POST-GRADUATE PROGRAMS

In ChSMA there are 3 post-graduate programs:

Fundamental
medicine

Number of students in
2022 - 17

Clinical medicine

Number of students in
2022 - 20

Preventive medicine

Number of students in
2022 - 2

There were 39 postgraduate students in 2022

SCIENTIFIC RESEARCH

Supervisor of scientific research work is Natalia V. Lareva
(Ph.D., Full Professor, Vice Rector of Science and
International Affairs)

Scientific research in the CHMA is
conducted in priority areas in medicine
and health care within the framework of
11 approved thematic maps

SCIENTIFIC RESEARCH

In 2022 ChSMA was participating in 8 international clinical trials in accordance with the protocols

In 2022 ChSMA staff defended 5 dissertations for the degree of Doctor of Medical Sciences, 8 dissertations for the degree of Candidate of Medical Sciences.

A total of 396 articles have been published, including 167 in scientific journals indexed by the Scopus and Webofscience databases.

CLINIC OF ChSMA

There are several departments:

Dentistry Department and
Ophthalmology Hospital

Adults' Department

Children's
Department

CLINIC OF ChSMA

In 2022:

127,771 visits including 63,747 visits for dental diseases

In the hospital 1887 patients were treated, 340 of them received high-tech medical care.

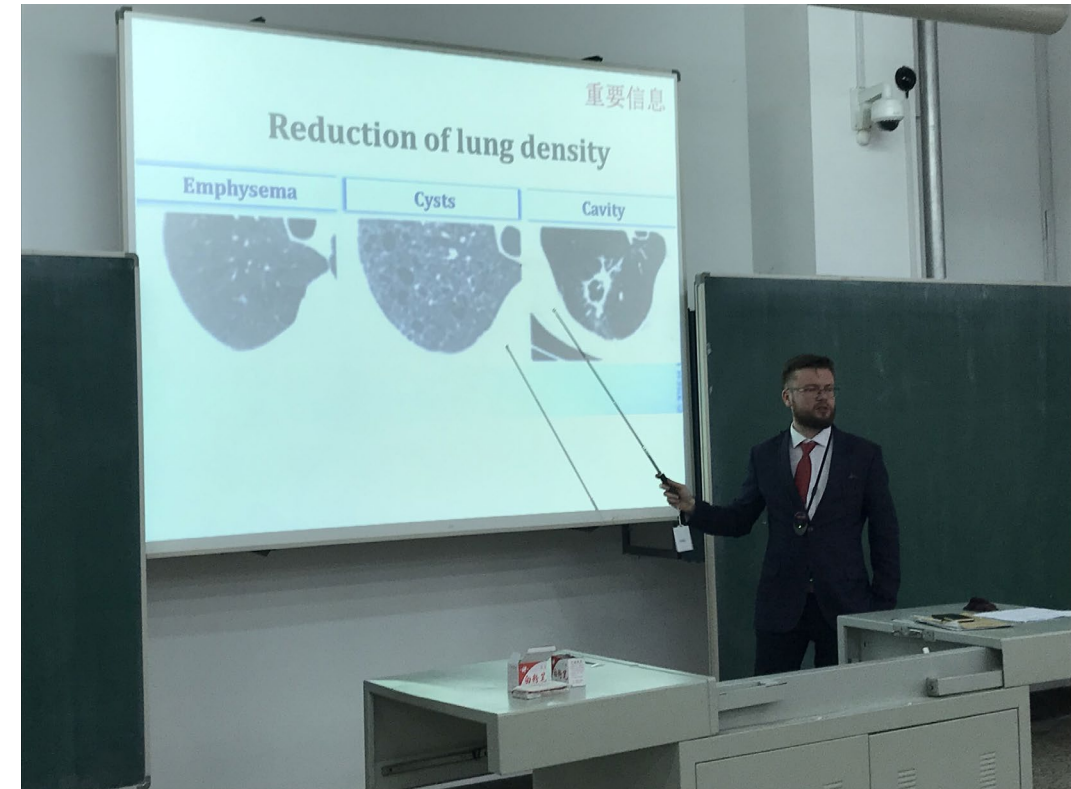

INTERNATIONAL COOPERATION

International cooperation at ChSMA is carried out in two main areas: research activities and educational work.

The priority foreign partner is the Qiqihar Medical University, China. Our fruitful cooperation has been continuing for 25 years.

There are three agreements between the ChSMA and the Qiqihar Medical University on the organization of training for students of the specialties "General Medicine", "Dentistry" and "Psychiatry".

INTERNATIONAL COOPERATION

In 2022 professors of the ChSMA gave 57 lectures in English in various disciplines to the students of Qiqihar Medical University in an online format.

Students from Qiqihar Medical University participated in XXI interregional scientific-practical conference of students and young scientists with international participation "Medicine of Tomorrow" (2022), international scientific-practical conference "Actual problems of pathophysiology" (2022).

INTERNATIONAL COOPERATION

There is 0.52% foreign students in ChSMA

The contingent of foreign students is represented by the students of Mongolia, the Republic of Congo, the Republic of Uzbekistan, the Republic of Tajikistan, the Kyrgyz Republic.

TERRITORY OF ChSMA DORMITORIES

There are four academic buildings and four dormitories on the territory of ChSMA which are located in the city center.

All non-resident students of ChSMA are provided with a dormitory

All dormitories are renovated.
